- 6. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**

The Commission amends R12-4-802 to incorporate changes proposed by Regional Staff and reviewed through Lands Council. The rule is amended to align the rule with existing wildlife area practices regarding closures in the Cibola Valley Conservation and Wildlife Area. The wildlife area historically closes posted portions to public entry from August 17 through September 30 to implement the Multi-Species Conservation Plan for the Cibola Valley Conservation and Wildlife Area. Currently, the rule states posted portions are closed to public entry, but does not specify a time-frame. The amendment benefits the public as providing a specific time-frame allows the public to easily determine when the area is open for use. The rule is amended to remove the restriction that prohibits a person from collecting wood in the Lamar Haines Wildlife Area. The amendment also limits wood collecting to dead and down material. The Lamar Haines Wildlife area is currently littered with a significant amount of dead and down aspen. The amend-

Notices of Exempt Rulemaking

ment benefits the public by allowing the public to collect dead and down aspen for home heating purposes and benefits the Department by making the wildlife area a more attractive destination for wildlife viewers and other outdoor recreationists. This action could save the Department many thousands of dollars, or many volunteer person-hours, as it would have to spend in order to do the job of cleaning up dead and down aspen on Lamar Haines Wildlife Area. The rule is amended to establish a new wildlife area, the Lower San Pedro River Wildlife Area, to reflect the newly acquired Commission property. The rule is also amended to rename the “Quigley Wildlife Area” to “Quigley-Achee Wildlife Area,” in honor of the former Wildlife Area Manager Bob Achee. In addition, language and format amendments are made to increase consistency between subsections.

The Commission amends R12-4-803 to by revising the Alamo Wildlife Area boundary description to reflect recent boundary changes and to remove property provided to the Arizona State Parks under an Army Corp of Engineers license. The rule is also amended to establish the boundary area description for the newly acquired Commission property designated as wildlife area, the Lower San Pedro River Wildlife Area. In addition, the rule is amended to rename the “Quigley Wildlife Area” to “Quigley-Achee Wildlife Area.”

7. A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The agency did not rely on any study in its evaluation of or justification for the rules.

8. A showing of good cause why the rule is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

The rule does not require the issuance of a regulatory permit, license, or agency authorization.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact on the competitiveness of business in this state to the impact on business in other states:
